## The Area:

*A Lunar Landscape by the Sea Located on a secluded peninsula just 60 miles from the U.S. border, Vidanta Puerto Peñasco is a rare sanctuary of "Fire and Water."*

*This region is home to the Pinacate Biosphere Reserve—a UNESCO World Heritage site so otherworldly that NASA used its volcanic craters to train Apollo astronauts for moon landings.*

*Here, you'll witness some of the world's most dramatic tides, where the ocean retreats up to two miles, revealing a secret world of tide pools and marine life.*

## The "WOHRCR Owner" Highlights:

- **The "Fire & Water" Entrance:** Your journey begins with one of the most iconic entrances in the Vidanta portfolio—a grand, torch-lit tunnel that opens into a soaring lobby, reflecting the heat of the desert and the cool of the Sea of Cortez.
- **The Peninsula Golf Course:** Co-designed by Jack Nicklaus and Jack Nicklaus II, this "Nicklaus Design" course is ranked among the top 20 in the world. It is a "thinker's course" built directly onto the sand dunes, with the estuary on one side and the deep blue sea on the other.
- **Indoor-Outdoor Luxury:** This is the only Vidanta location featuring a massive indoor heated pool and solarium, allowing for a 5-star swim experience even during the crisp, star-filled desert nights.
- **Eco-Adventure:** Explore the Morua Estuary by kayak to see over 140 species of birds, or take a boat to Bird Island to swim with sea lions in crystal-clear water.

**The Ownership Advantage:** As an owner at The Grand Mayan Puerto Peñasco, WOHRCR provides you with a front-row seat to the most peaceful sunsets in Mexico.

- **Secluded Inventory:** Because this resort is located 25 minutes outside the main town of Rocky Point, our guests enjoy 4 miles of uncrowded, private beach—a level of peace that is impossible to find at standard public hotels.
- **Residential Comfort:** Our One and Two-Bedroom Suites offer the perfect "Baja-Chic" environment to relax after a day on the greens or a night of stargazing through the resort's professional-grade telescopes.
