***The Area:*** A Tropical Sanctuary of Wonder Spanning over 1,000 acres of pristine jungle and white-sand coastline, Vidanta Riviera Maya is a world unto itself. This destination is defined by its winding wooden pathways (the "Jungle Walkways"), hidden cenote-style pools, and the breathtaking turquoise waters of the Caribbean Sea. It is the only place in the world where you can experience high-end luxury literally carved into the heart of the exotic Yucatecan landscape.
